Routine Food

KI O. LEE
GRACE GIFT SHOP
10850 W PARK PL
MILWAUKEE, WI

7/28/2008

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

Code Number	Description of Violation	Correct By
3-304.14	Wet wiping cloths are stored on the preparation table. All wet wiping cloths must be discarded, stored in a sanitizer bucket, or stored in a designated laundering location away from and below all food and food preparation surfaces. Discontinue storing wet wiping cloths on the preparation table. A sanitizer bucket must be setup at all times so that counters and surfaces may be wiped and sanitized. Set up a sanitizer bucket using bleach and water. Use test strips to test the concentration of the sanitizer; bleach is to be at a concentration of 50ppm to 100ppm.	7/28/2008
3-306.11	The sneeze guard installed on the hot dog warmer is not adequate for protecting the food. Tether the door so that it can not be opened completely. Customers may not self scoop popcorn when the popcorn unit is in use. All popcorn must be prebagged and sealed so that all customers have to do is open the door and pick up the popcorn bag.	8/11/2008
4-601.11	A jar of old grease is sitting on the clean side drain board. The clean side drain board must be kept clean at all times. The only thing permitted to be stored on the clean side drain board is cleaned and sanitized food containers and utensils/wares. Discontinue storing cooking byproducts on the drain board.	7/28/2008

Violations

4-301.16 Lettuce is being washed in the sanitizing basin of the 4 compartment sink without using a colander or a strainer. The lettuce was lying on top of cleaned containers and touching the sides of the sanitizing sink basin. Discontinue washing the lettuce in this manner. When washing produce, wash/rinse only in the far left sink basin using a colander.

7/28/2008

6-501.12 The following surfaces need to be cleaned:

- 1) The floor underneath the prep table and the freezers in the kitchen are dirty. Clean the floor and maintain it clean at all times.
- 2) The wall behind the preparation table and the wall behind the stove are dirty with old dried food debris. The wall must be kept clean at all times. Clean and wipe down the wall surface to prevent accumulation of food debris. If the walls cannot be cleaned, FRP board will be required to be installed. Additionally, at change of operator, kitchen remodel, or if the walls are not clean at any time, FRP board will be required to be installed.

3-305.11 A container of lettuce is stored on the dirty end drainboard. To prevent contamination, the container of lettuce may not be stored on the drainboard. Discontinue storing food products on the drainboard and provide adequate preparation tables for all food products. The drain board may only be used for storing dirty dishes/utensils.

Notes:

Move the location of the soap dispenser so that it is installed above the far right sink basin or the right hand side drain board.

Remove all equipment that is necessary for kitchen operation. This includes any equipment, cooking equipment, paperwork, boxes, etc.

At any remodel, change of ownership, or discretion of MHD, the kitchen may be required to be updated so all codes are met.

On 7/28/2008, I served these orders upon KI O. LEE by leaving this report with

Inspector Signature (Inspector ID:66)
